

## Technical Data:

Working Height	18m
Total dimension (packed up): Height	1,98m
Width	0,79m
Lenght	5,95m
Maximum basket load (2 pers. + 30kg) or	200kg
Turret Rotation	365deg
Articulatin arm	270deg
Total weight (approx.)	2500kg

## Standard Equipment:

- Fully electric hydraulic and 24V DC battery powered, with 220V AC automatic charging.
- Self propelled drive, 2 speed, forwards and backwards, direct drive on front wheel.
- Adjustable track-gauge for narrow places or driving in the open.
- Individual adjustment and placing of outriggers, vertical and horizontal.
- Full hydraulic telescoping of booms.
- Automatic basket levelling.
- Step-less speed control from the basket and on-off controls on the base.
- Emergency lowering by a hand pump.
